U.S. Probation Officer Action:

The following is provided to the Court for informational purposes:

On August 14, 2012, the undersigned visited the offender at home subsequent to the Court's recent imposition of a 90-day term on an alcohol monitoring bracelet. Though not yet equipped with the monitoring bracelet, the offender had been reminded on numerous occasions that he must not consume alcoholic beverages, pursuant to his substance abuse treatment condition. During the home visit, the offender admitted that he had just imbibed a glass of wine. A breathalyzer exam was administered, which yielded a result of .030. Additionally, the undersigned observed in plain view an empty one liter bottle and a half-liter bottle of Johnny Walker Black whisky, a bottle of oxycodone, and a bottle of Robitussin. The offender neglected to advise the undersigned that he had been prescribed the painkillers, although he states that he obtained them after a "fall" at work. Notably, the offender admitted to imbibing the wine with the oxycodone and the Robitussin.

Based on the offender's continued use of alcohol and his dismissal from outpatient treatment, the offender was referred to inpatient treatment at Daytop Village in Rhinebeck, New York. He checked into the program on August 21, 2012, and is expected to complete treatment on September 18, 2012. Due to his inpatient status, the alcohol monitoring bracelet will not be installed at this time.

The Probation Department respectfully request no action at this time.

Respectfully submitted,
